Foreword:

I have great pleasure in publishing this edition of newsletter of College of Engineering, Phaltan. Phaltan Education Society's College of Engineering Phaltan commenced with a dream of holding the hands of students of rural area around Phaltan and making excellent quality education available to them at their doorsteps. Within a short span, it has risen to the position of being a prestigious Engineering College and it is a great exciting experience to see that in a barren land of 15 acres where once stillness and silence ruled now it is alive with life and buzz of activities that are definitely aimed to a noble end and purpose.

The infrastructure of our college is made available as per the rules of AICTE. Our dedicated faculties, well-furnished laboratories and professional culture in the campus provide education of advanced cutting edge technologies to create competent human resources to tackle the complex problems of modern era and good citizens for the better future of the country.

Prof. Dr. N. G. Narve

Principal

PES's College of Engineering, Phaltan

E & TC Engineering department organised Expert lecture on “**Types of Entrepreneurship**” on 12th Feb 2024. Mr. Kumar Kudumbar owner of Master Tech IT Solutions, Phaltan, conducted the expert lecture. He shared his journey as an “Entrepreneur” with students. He told that the journey of entrepreneurship in the CCTV business involves recognizing opportunities, conducting market research, developing or selecting products, ensuring legal compliance, marketing and selling, managing distribution channels, providing customer support, scaling and adapting to industry changes, and sustaining success through innovation and strategic planning. It requires perseverance, resilience, and a deep understanding of both technology and business aspects.

Kumar Kudumbar discussing on Entrepreneurship

MECHANICAL ENGINEERING DEPARTMENT

Industrial Visit at VPKBIT Baramati

Mechanical Engineering, Department organized Industrial Visit at Center of excellence in Digital Manufacturing & Robotics at VPKBIT Baramati on 29th Feb 2024. Total 35 students and staff were present for industrial visit. Skills and knowledge are the driving forces of economic growth and social development for any country. Countries with higher levels and better standards of skills adjust more effectively to the challenges and opportunities in domestic and international job markets. Center of Excellence (CoE) is a body that provides leadership, best practices, research, support, training of trainers and skill training for a specific sector/s. The literal meaning of a Center of Excellence is – ‘A place where the highest standards are maintained.’ Centre of Excellence in skilling ecosystem is envisioned to be one stop resource centre, established/working in partnership with industry to raise training standards, boost productivity, address emerging skill gaps and align training & research with industry needs.

**All Student with Faculty were present for
Industrial Visit**
